Series.pdf

**Ex. 4 - CBI**

From the installation manual:

### 3.4 List of Materials

- ☐ Series 1000 or Series 2000 meter, enclosure and associated mounting materials
- ☐ Line 1, Line 2, Line 3 and Neutral hook-up wires as needed for the electrical service.
- ☐ Wires must be 18 AWG or larger and insulated for 600 VAC min.
- ☐ Current Transformers (CTs): This product is designed for use with Leviton CTs
- ☐ Conduit and fittings as appropriate. UL Type 4X conduit and fittings must be used for outdoor applications to maintain the rating of the installation.

Hi Gary,

The Leviton 2N208-11 you specified is the meter only. Do we also need to purchase current transformers for the lines, or is this something you have around?

<http://www.leviton.com/en/products/2n208-11>

<https://www.amazon.com/Leviton-CDE01-311-Sub-Metering-Current-Transformers/dp/B004KRVAZ8/>

Let me know,

Michael
